

INFANT/TODDLER TRANSITION PLAN

The Early Head Start program individualizes, for each child, the transition from infancy to toddlerhood. Following is the proposed plan for _____, (*Child's Name*) which the Early Head Start Staff at _____ and _____'s (*Child's Name*) parent(s) have agreed to:

1. Allow _____ (*Child's Name*) to sleep on a cot at naptime after she/he turns one year old.
2. Allow _____ (*Child's Name*) to sit at the table for meals and use a spoon and fork to feed him/herself.

The above-mentioned steps will be followed to ease _____'s (*Child's Name*) transition to more independence.
