

Parent Contribution to Curriculum Planning

Parents are encouraged to participate in their child's education. Staff and parents must work together to ensure each child succeeds in school. Please help us support your child's education by filling out this brief questionnaire.

Why have you enrolled your child in Head Start? What do you want him/her to get out of school?

What is your child interested in? (activities or topics)

Can you think of any places we might take the children on field trips or any special guests/speakers to have come to school?

Is there anything about your child or family that the teachers should know about? (new baby, disabilities, bi-lingual family, etc.)

Are there any behaviors (or strong personality traits) that your child exhibits? And how can we best respond to these situations? (when not getting their way, when upset, etc)

Does your family celebrate any special holidays or have family traditions that you might be interested in sharing with the children about? Are there holidays that your family does not celebrate?

List any hobbies or interests that you have that you might want to share with Head Start (reading to children, cooking with kids, outdoor activities, field trip volunteers, etc.)?

To support your child's education, please list a family goal that you want to work on this year (for suggestions, see achievement gap booklet)
